Niccolò Turcato

Padova, Veneto, Italia.

Mobile: 3484536083
Skype: n.turcato1976 E-mail: niccolo.turcato@phd.unipd.it, turcatonic@outlook.it

Date of birth: 29/09/1998 Nationality: Italiana Mother tongue(s): Italiano

Qualified to practice Engineering profession in Italy since 19th January 2023.

CURRENT OCCUPATION

PhD Student: Department of Information Engineering of the University of Padova.

Supervisor: prof. Ruggero Carli.

Area of research: Reinforcement Learning for Robotics.

EDUCATION
Graduate studes

MSc degree in Computer Engineering (University of Padova) 2020-2022

Final Grade: 110L

Final Project: Model Based Reinforcement learning for industrial robotics applications.

Final Degree Project Brief Description:

The project consists in exploring the use of Model-Based Reinforcement Learning algorithms in the context of industrial manipulators. The considered test case is learning a policy for tossing an object in a bin with a robotic arm.

We relied on the Reinforcement Learning framework Monte Carlo probabilistic inference for learning control (MC-PILCO) to derive the tossing policy. We used a Franka Emilka Panda Robot controlled with ROS control. We carried out experiments both on simulated and real setups.

Supervisor: prof. Ruggero Carli

Undergraduate studies

First level degree in Ingegneria Informatica

(University of Padova)

2017-2020

Final Grade: 110 (over 110)

Final Degree Project: Implementazione dell'euristico ZIRound per problemi MIP

Supervisor: prof. Domenico Salvagnin

High School

High School Diploma: "Diploma di istruzione Tecnica - indirizzo INFORMATICA e TELECOMUNICAZIONI - articolazione INFORMATICA"
I.I.S. Viola-Marchesini (Rovigo - Italy - https://www.iisviolamarchesini.edu.it)

Start (12, 09) –End (17, 07)

Grade: 89 (over 100)

RELEVANT EDUCATIONAL EXPERIENCES

(21/03/2022 - 06/05/2022) Research Training experience at the department of Information Engineering of the University of Padova, under the supervision of prof. Ruggero Carli, the topic was: "Development of Deep Learning and Gaussian Processes based learning algorithms for estimation of inverse dynamics of mechanical systems".

(2017) Computer technical certification Cisco IT essentials v5.0 at I.I.S. "VIOLA-MARCHESINI", Rovigo.

(2016) General worker training, Medium-risk worker training, low risk fire worker training, at I.I.S. "VIOLA-MARCHESINI", Rovigo.

RELEVANT PROFESSIONAL EXPERIENCES

(Jun–Dec 2024) Research Visit at ABB Corporate Research Center, Västerås, Sweden. Research topic: "Reward design for Reinforcement Learning with Large Language models, with robotics manipulation applications". Supervisor: Matteo Iovino.

(2022-2025) Teaching Assistant for Reinforcement Learning course at the Information Engineering Department of the University of Padova.

(2021- 2023) Tutor for Calculus 1 and Linear Algebra courses for the Information Engineering, Ingegneria Biomedica and Ingegneria Aerospaziale BcS Degrees at the Information Engineering and Industrial Engineering Departments of the University of Padova.

(2020) Tutor for volunteer project TOP (Tutoring Online Project) organized by Harvard and Bocconi University. (https://leap.unibocconi.eu/projects/progetto-top)

(2015-2016) Highschool internships

PERSONAL SKILLS

English

UNDERSTANDING		SPEAKING		WRITING
Listening	Reading	Spoken interaction	Spoken production	
B2	B2	B2	B2	B2

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user
Common European Framework of Reference for Languages

Computer skills

Advanced: Programming (C++, Python, Matlab, Java, C#, ARM Assembly), software development and versioning. Machine Learning and Deep Learning knowledge and experience. Robot programming knowledge and experience.

Intermediate: LaTeX and Office packages skills. Web development. Computer systems and computer networks repair and maintenance.

Basic: Video editing, CAD.

Awards

Winner of the 2nd competition "AI Olympics With RealAIGym: Is AI Ready for Athletic Intelligence in the Real World?" held at the International Conference on Intelligent Robots and Systems 2024 (IROS 2024).

Paper name: "Learning control of underactuated double pendulum with Model-Based Reinforcement Learning ".

(https://ai-olympics.dfki-bremen.de/aiolympics-at-iros-2024/)

Winner of the competition "AI Olympics With RealAIGym: Is AI Ready for Athletic Intelligence in the Real World?" held at the International Joint Conference on Artificial Intelligence 2023 (IJCAI 2023).

Paper name: "Athletic Intelligence Olympics challenge with Model-Based Reinforcement Learning".

(https://ai-olympics.dfki-bremen.de/aiolympics-at-ijcai-2023/)

Premio "Sergio Gambi" 2021 and 2022. Awarded as first ranked between Master's Degree students and 4th and 5h year single-cycle Master's Degree students of the Schools of Engineering and Science, of the University of Padova, in possession of the merit and income requirements established by the call for applications.
